Motivation Letter – 2021 Call for Candidates in OpenPeppol Elections

Dear Sir/Madam

In view of the current open positions for end-user representatives on the OpenPEPPOL Managing Committee, I herewith submit my candidature for the said position. I am also submitting my candidature for the position of end-user representative on the Election Committee. My candidatures are being presented on behalf of the organisation I represent, that is the Ministry for Finance and Employment in Malta.

My organisation became an end-user member with OpenPEPPOL two years ago. Since then I have been representing the small end-user community on the OpenPEPPOL Managing Committee and on the Election Committee. I believe that these two years' experience will help me to be able to better coordinate this category of users and entice more end-user members to be active in this category. This is particularly apt at this period in time in view of the initiatives that OpenPEPPOL is undertaking such as International Invoicing, the Continuous Transaction Control project and the ongoing discussion on the Global Interoperability Framework.

Therefore, in view of the above, I submit my candidature for one of the vacant seats for end-user representatives on the Managing Committee and end-user representative on the Election Committee. As requested in the call for candidates document, I am also attached my Curriculum Vitae for your consideration and perusal.

I thank you in advance for your attention.

A handwritten signature in blue ink, appearing to read 'Audrey Anne Callus Randich'.
