

* **Portfolio Manager Pre-Award**, Vibeke Engesæth, has more than 20 years' experience with end user applications customised for multiple entities based on consensual business processes.

As coordinator for pre-award activities in Norway I've worked with defining the different steps in procurement process, and are familiar with the European Interoperability Framework (EIF) as a common approach for establishing cross border standards and specifications. My business focus and close communication with the service providers is a useful base for participating in establishing PEPOL BIS. I am also well updated on the different regulations concerning the pre-award area, and the need for the BIS to reflect the regulatory requirements.

The pre-award is a complex area in the establishing phase with standards and specifications. OPEN PEPPOL has a crucial role in this work. For me being part of this work I consider important, challenging and very interesting, and I would very much like to participate and contribute.

Vibeke Engesæth	Portfolio Manager Pre-Award
