

March 3, 2022

Dear Pre-Award CC Members and Stakeholders,

I am pleased to propose you my candidacy to coordinate the Pre award Community (PRAC) for the next two years.

It's been my privilege to run the Pre award since the creation : to establish an active Community able to deliver several Peppol Bis , to collaborate with the other Communities, to be compliant with latest EU legal requirements, to work in team during a world pandemic and to appreciate the professionals that crossed my path . Each of them taught me something and motivated me to bring forward the work in Pre Award.

From these experiences, I have been trained in and learned about visioning, collaboration with different stakeholders to figure out a common view, setting action agendas and following through on tasks. It is my hope to offer my experience and acquired skills to the Pre award and OpenPeppol for another 2 years .

I would like Pre-Award to be known for significant accomplishments in the next two years - ones we identify together. They may include:

- Development of Peppol ESPD 3.0 BIS based on ESPD EDM;
- Development of new Peppol Bis in eTendering messaging area

Many challenges are ahead of us requiring lot of resilience and motivation. I am willing to provide them to PRAC and to OPenPeppol .

Hoping to receive your support,

My kindest regards,

Isabella Rapisarda
