To whom it may concern,

We propose Mr. Iacopo Arduini for the open position of member of the eDelivery Community (eDEC) Change Management Board.

Name of Candidate	Iacopo Arduini
Position the Candidate is running for	eDelivery Community (eDEC) Change Management Board member
Name of OpenPeppol Member proposing the Candidate	Intercent-ER, Regional Agency for the development of the electronic marketplace
Professional relationship of Candidate and Proposing Member	Consultant
Curriculum Vitae of Candidate	<i>(see the attached document)</i>
Motivation letter	
<p>Emilia-Romagna region made a winning bet when they chose to use Peppol as an infrastructure and Peppol BIS documents as a standard, to support public procurement and e-Delivery in 2015; that same bet is now being recognized in Italy as a whole, with the NSO project mandating the use of Peppol BIS 3 Orders for all Italian public administrations, starting with the Health Care sector in February 2020, and the EEISI Project allowing PEPPOL BIS 3 Invoices to be used for public procurement, next to the Italian e-invoicing standard FatturaPA. My commitment is to make any effort possible to make sure the options and policies of Peppol are strongly represented.</p> <p>I've been attending most if not all F2F meetings during the last 4 years (and skipping every single social dinner due to my food allergies, but that's a whole different story), I took part in some workgroups and development groups; my focus has always been on trying to get an ever growing understanding of both the technical infrastructure and the decision process of Peppol; I'm aware I still have a long way to go before I can call myself an expert in this field, but I've been crushing bytes for the last 11 years and haven't yet grown tired of learning new things.</p>	

Kind regards,

**Elisa Bertocchi**

ICT Coordinator and Project Manager
