Peppol is owned by OpenPeppol AISBL

# A-NZ PINT Approach

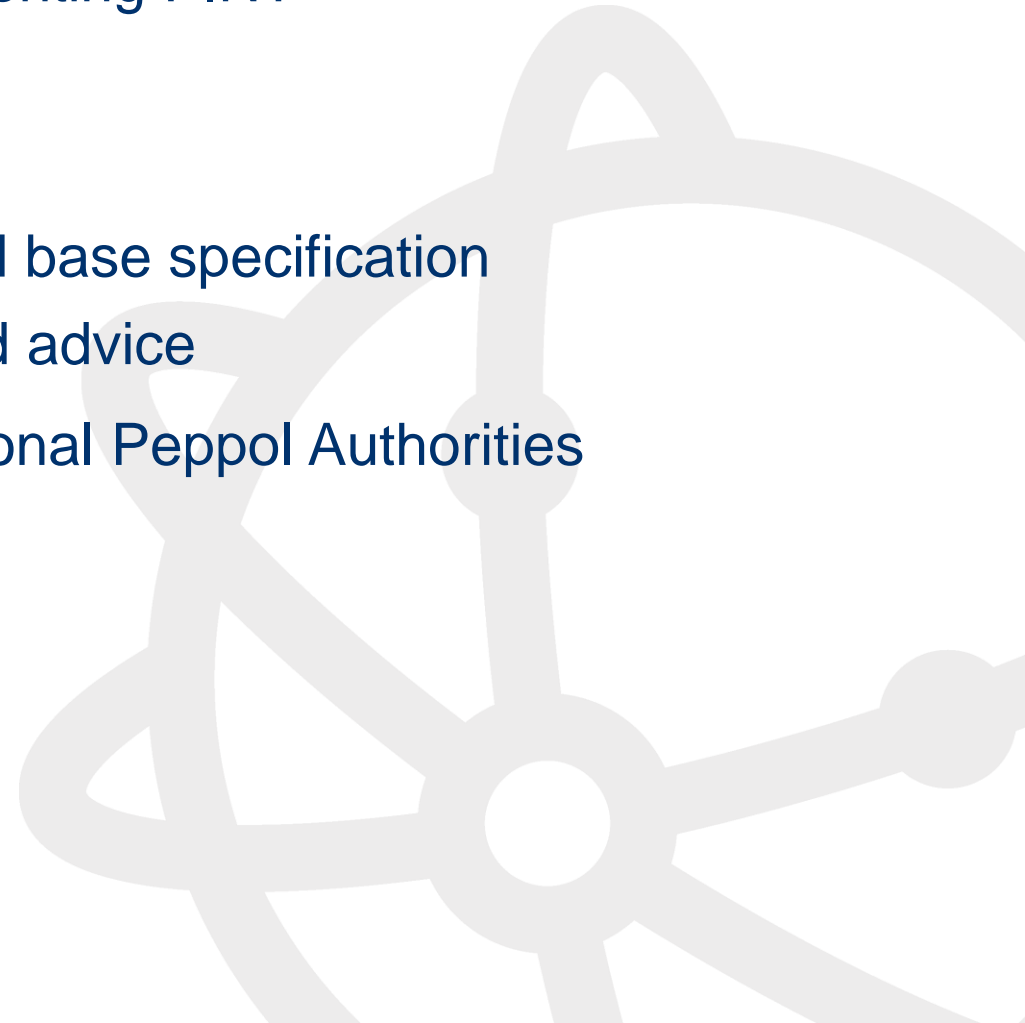

---

- Initial A-NZ PINT specialisation draft being used for the Proof of Concept:
  - aligns as closely as possible with the existing A-NZ invoice BIS extension
- Is subject to change when we consult with local stakeholders
- Draft data model for the PoC
  - is identical to BIS Billing and current A-NZ invoice extension, plus the new Issue Time element (Shared, optional)
  - does not include new Aligned features
- Tax (same as current A-NZ Spec)
  - Tax scheme 'GST' rather than 'VAT'
  - Tax categories S, E, G, Z, O
  - No need to include new tax-related features from the Aligned model

# A-NZ Future Plans

---

- A-NZ Peppol Authorities are committed to implementing PINT
- Plans will be dependent on
  - Successful proof-of-concept
  - Peppol consultation about PINT model and base specification
  - Management Committee endorsement and advice
- Alignment/consultation with OpenPeppol and regional Peppol Authorities
