

Candidate

Post-Award Change Management Board member (2-Year term, PoAC-CMB)

Wim Kok, Nederlandse Peppolautoriteit ([NPA](#))

[Wim Kok | LinkedIn](#)

Motivation

I am the editor of WG1 Customization guideline of CEN/TC 440 Electronic Public Procurement and actively contributing to WG1 Architecture, WG5 Catalog, WG6 Order and WG7 Fulfilment. Is also member of the ontology project led by Publication Office. I am an expert in CEN TC434 e-Invoicing and has actively contributed to the first phase that led to the publication of the EN 16931:2017 and is still contributing to the current phase targeting the publication of an amendment to the EN. I am active in the CEN/TC 434 e-Receipt workgroup and creating the required document in the OASIS UBL technical committee. With these connections I can be a good liaison between OpenPeppol and European working groups and can help OpenPeppol in implementing the TC440 deliverables.

I gave a contribution to the revision of the Dutch CIUS for e-Invoicing and active in the STPE that maintenance the standard. This provides me with the knowledge to work with country specific requirements.

I am active in creating standards for digital business for the Dutch [Ministry of the Interior and Kingdom Relations](#) like the Dutch BIS for e-ordering and I have been working with implementing PEPPOL BIS in the Dutch marked as a service provider. This provides me with the knowledge to work with branch specific requirements.

I was actively contributing to Advanced Ordering working group in Peppol.

I am active member of the OASIS UBL technical committee. With UBL as the base of the PoAC documents I can bring changes from and to this technical committee.
