Dear OpenPeppol,

I would like to express my interest and availability for the position of **Post-Award Community (PoAC)** member.

I have closely followed the development of Peppol since the beginning of 2012, when I built Maventa/Visma AutoInvoice data processing, conversion and validation services for the first versions of EHF and PeppolBIS.

I have extensive and practical experience with, among others, the following formats and versions: **EHF** (1.0, 1.5, 1.6, 3.0), **PeppolBIS** (1.0, 2.0, 3.0), **OIOUBL** (2.02, 2.1), **SI-UBL** (1.0, 1.1, 1.2, 2.0, 2.0 G-Account), **E2B** (3.4, 3.4.1), **Svefaktura** (1.0), **TEAPPSXML** (2.7.2, 3.0 + EN16931), **Finvoice** (1.3, 2.0, 2.01, 3.0 + EN16931) etc.

Being employed in the largest Peppol AccessPoint in Norway I have been on the front seat to see the development, benefits and issues in the network so I feel I would be a good asset to the Peppol community as the network grows to new areas.

Sincerely,

Jussi Koljonen
