Hello,

I hereby submit my candidacy for the APP CMB:

1. Gérard SOISSON
2. Peppol Authority Representative on the Agreements, Policies and Procedures Change Management Board (APP CMB)
3. Luxembourg Ministry for Digitalisation (Luxembourg Peppol Authority)
4. Representative of the Luxembourg Peppol Authority; civil servant coordinating eInvoicing and Peppol topics at the Luxembourg Ministry for Digitalisation
5. Gérard Soisson is now working for more than 25 years in the domain of digital government. He has, among others, expertise in fields like digital government strategy and policy, web standards, conceptual web design, document management, project management and interoperability. He is working since 2020 in the Luxembourg Ministry for Digitalisation and is also Luxembourg's national coordinator for the Single Digital Gateway (SDG). Regarding eInvoicing, he is responsible since 2016 for coordination of the topic in Luxembourg and has elaborated both laws on eInvoicing in Luxembourg and designed the technical solutions. He is also at the origin of the choice of Peppol as the common eDelivery network used for eInvoicing in Luxembourg and is representing the Luxembourg Peppol Authority in OpenPeppol. He is dealing for nearly ten years now with topics like eDelivery in general and Peppol in particular and is also involved in other eDelivery projects, like for example, as Luxembourg's national SDG coordinator, in the SDG OOTS (Once Only Technical System).
6. The APP CMB is an important element of the whole Peppol governance and can influence and contribute significantly to optimise this governance. As good and efficient governance is key in the context of a network like Peppol, it seems important for the Luxembourg Peppol authority to contribute to the definition and the further evolution of this governance.

Bescht Gréiss, Meilleures salutations, Best regards,

Gérard SOISSON
