## September 2017: OpenPEPPOL and EUPLAT have signed a Memorandum of Understanding.

- ESPD Position Paper, first deliverable produced to affirm the value of *establishing interoperable solutions for ESPD implementations in Europe* .
- The Position paper is based on a common concern for the individual national implementations of the European standards for e-Tendering to showcase and stress out the mature capability of ESPD to represent a best practice for the implementation of standardized procurement messages in the Pre-award domain .
