4. Organisation of work
5. AOB

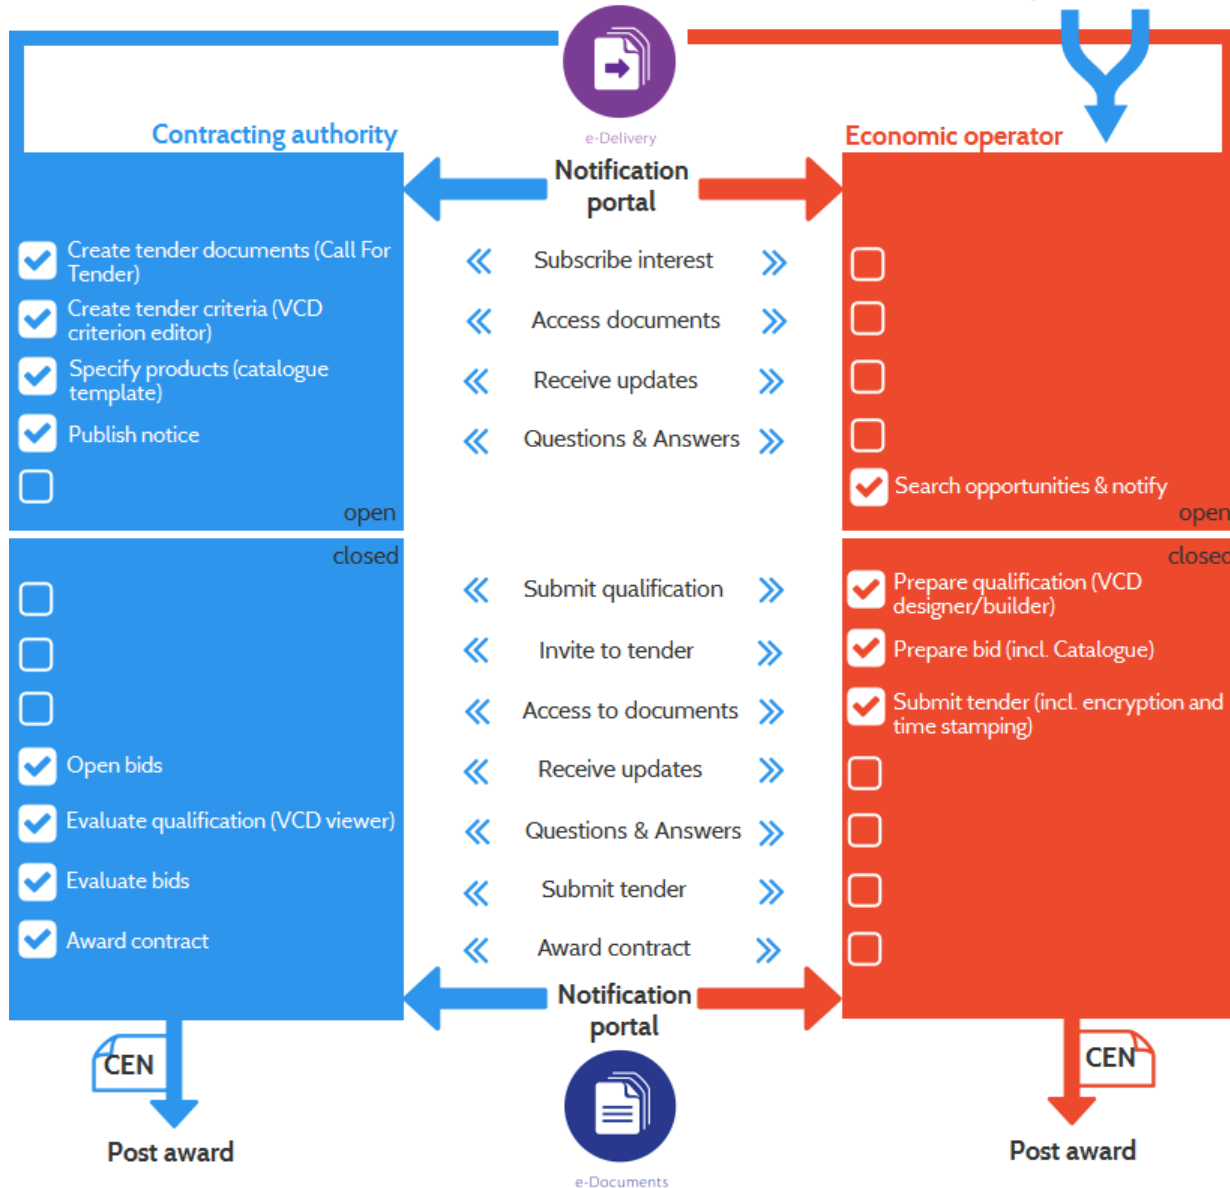

# Pilot Business Architecture

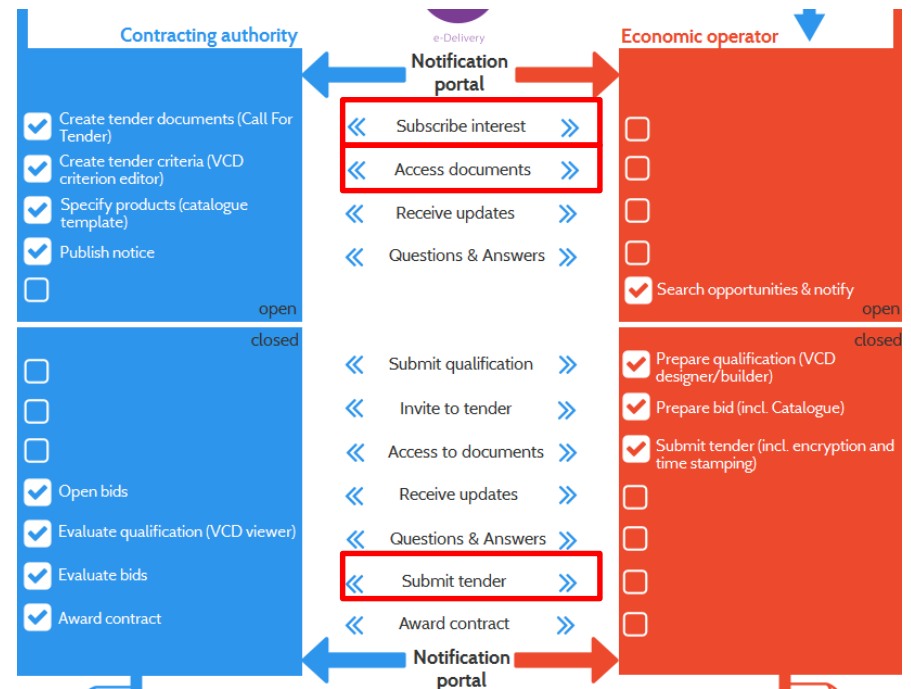

e-Signature

e-ID

# Tender services

- Subscribe interest
- Access documents
- Submit tender

# Implementing experiences

Tendering systems	Gateway's
Inno:vasion	UPRC
Merzell	Holodeck
eVergabe	Unit4
TenderNed	Espap
Vortal	Vortal
Pixelware	Flame
Gatewit	IBM
Millstream	
Negometrix	

# ETWG Mandate

The WG is committed to provide the following deliverables to OpenPEPPOL:

1. e-Tendering related specifications ( to be published as BIS v 01.);
2. UBL specifications and schematrons related to the implemented BIS specifications;
3. Guidelines for implementation of the AS-IS Operation;
4. e-Tendering Interim Agreement for implementation;
5. Ongoing WG activity documentation;
6. Handover documentation at project end;
7. Change requests to existing PEPPOL artefacts and specifications. All deliverables are to be maintained and updated by the members of the Work Group during the lifetime of the Work Group, unless formally handed over to other entities in OpenPEPPOL.

# List of artefacts

- BIS 46 - Subscribe to Procedure (UBL and Schematrons)
- BIS 47x - Call for Tender with ESPD (UBL and Schematrons)
