Post-Award Community Process

Challenges with the current process

- ▶▶ Resource planning – all development is done between cut of and test hand-over
- ▶▶ RFCs to CMB for approval
- ▶▶ Strict line between development resources and test resources

Pre-Award Process – Discussion points

- ▶▶ Different teams or the same for Pre-Award and Post-Award?
- ▶▶ In-house or in-kind resources?
 - ▶▶ Priority list?
- ▶▶ Ownership and support of "nice to have" features
