- OpenPeppol AISBL

Member Countries where Access Points are not yet certified:
Australia, Mexico, New Zealand, Romania and Slovak Republic

Peppol going global

- South-East Asia

- Singapore: Official launch was in January 2019
 - The first PEPPOL Authority outside Europe
 - Helping to engage other ASEAN countries
- Malaysia may be next – hopefully by early 2020

- Trans-Tasman region

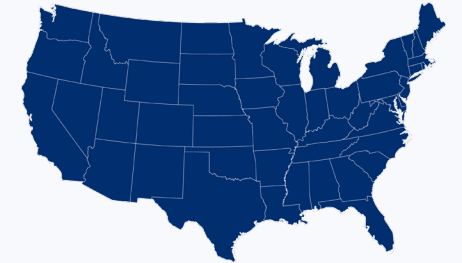

- New Zealand already joined, Australia joining soon
- The two countries coordinate and align their requirements
- Planning to go live late 2019

- How do we engage other regions?

- Establish understanding of the PEPPOL approach
- Formulate value proposition on focus (eg market-driven/government-driven)
- Accommodate regional requirements, maintain compliance with Peppol principles

Canada

USA

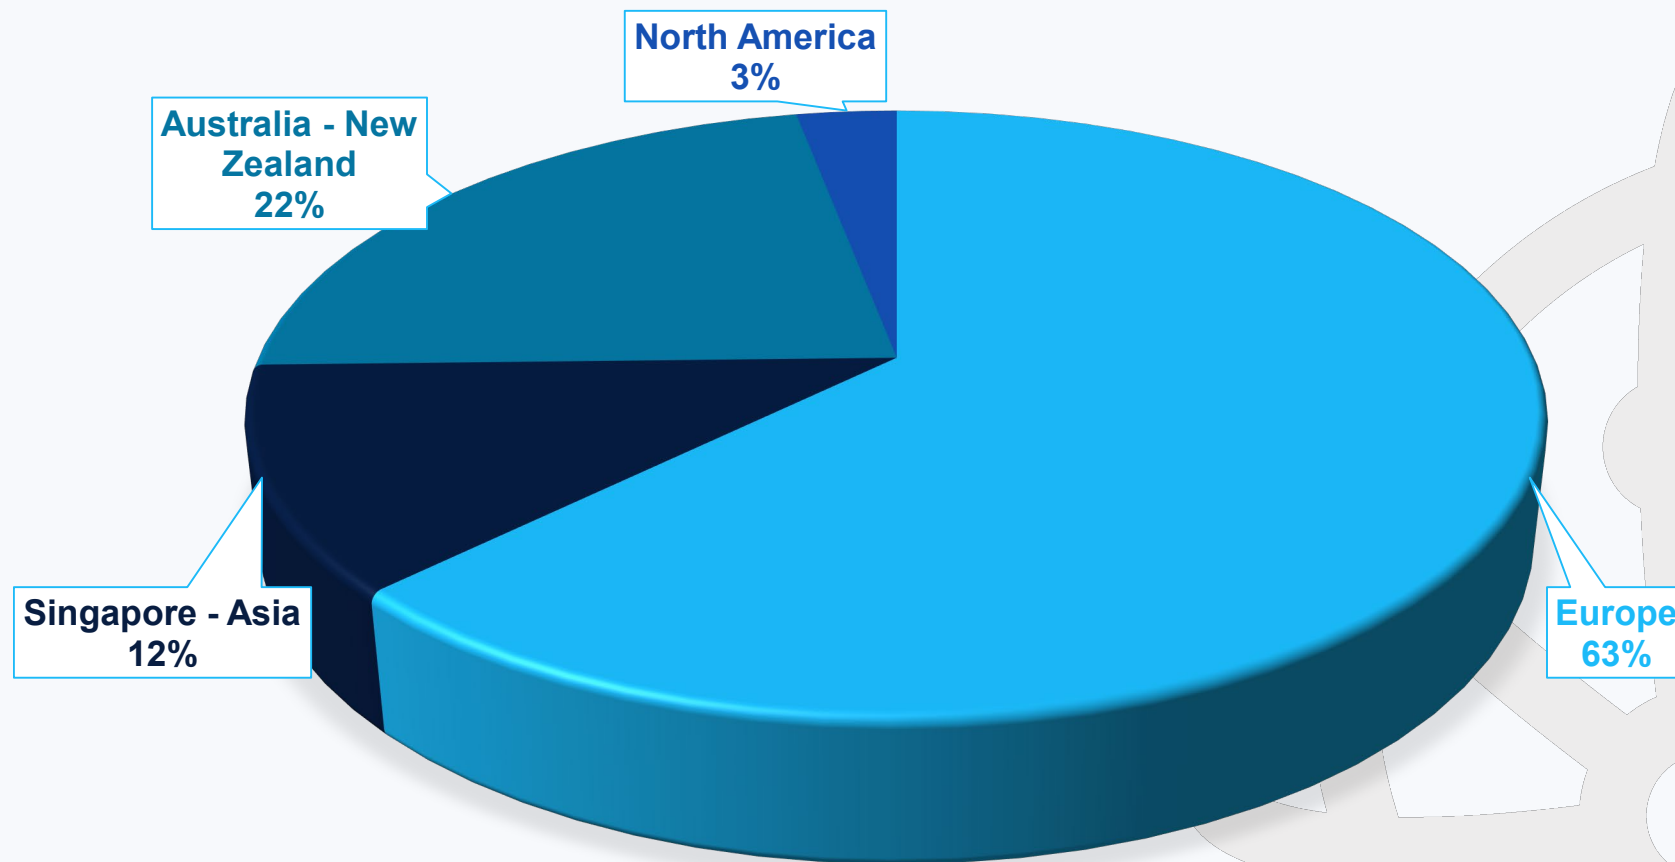

Singapore

Australia
New Zealand

Membership Net Growth per Region

More than 1/3 of the growth comes outside Europe (37%)

Top countries in growth (Global)

Ranked by absolute numbers

	Country	Number of Members		Net Growth
		31.12.2018	Today	
1	Italy	28	41	13
2	Singapore	12	20	8
3	Australia	0	8	8
4	Germany	17	24	7
5	New Zealand	0	7	7
6	Sweden	24	30	6
7	Greece	3	7	4
8	Netherlands	31	35	4
9	Norway	55	58	3
10	Denmark	16	18	2
11	France	9	11	2
12	Switzerland	1	3	2

Important Peppol Milestones

Peppol BIS Billing 3.0

Mandatory from 19.4.2019

2.0 version discontinued and unsupported from 31.12.2019

New Peppol Agreement Framework

On review until 15.11.2019

AS4 Message Exchange Protocol Mandatory from 1.2.2020

AS2 Message Exchange Protocol
Optional from 1.2.2020

New Peppol Agreement Framework

To be approved by 27.1.2020

Migration starts 1.2.2020

Autumn 2019

- Peppol role in tax compliance support to be established – how should Peppol BIS and the Peppol eDelivery Network best be used to support tax clearance and tax reporting models?
- International invoicing work group to be initiated – result expected for autumn release 2020

Peppol BIS Billing 3.0 migration status

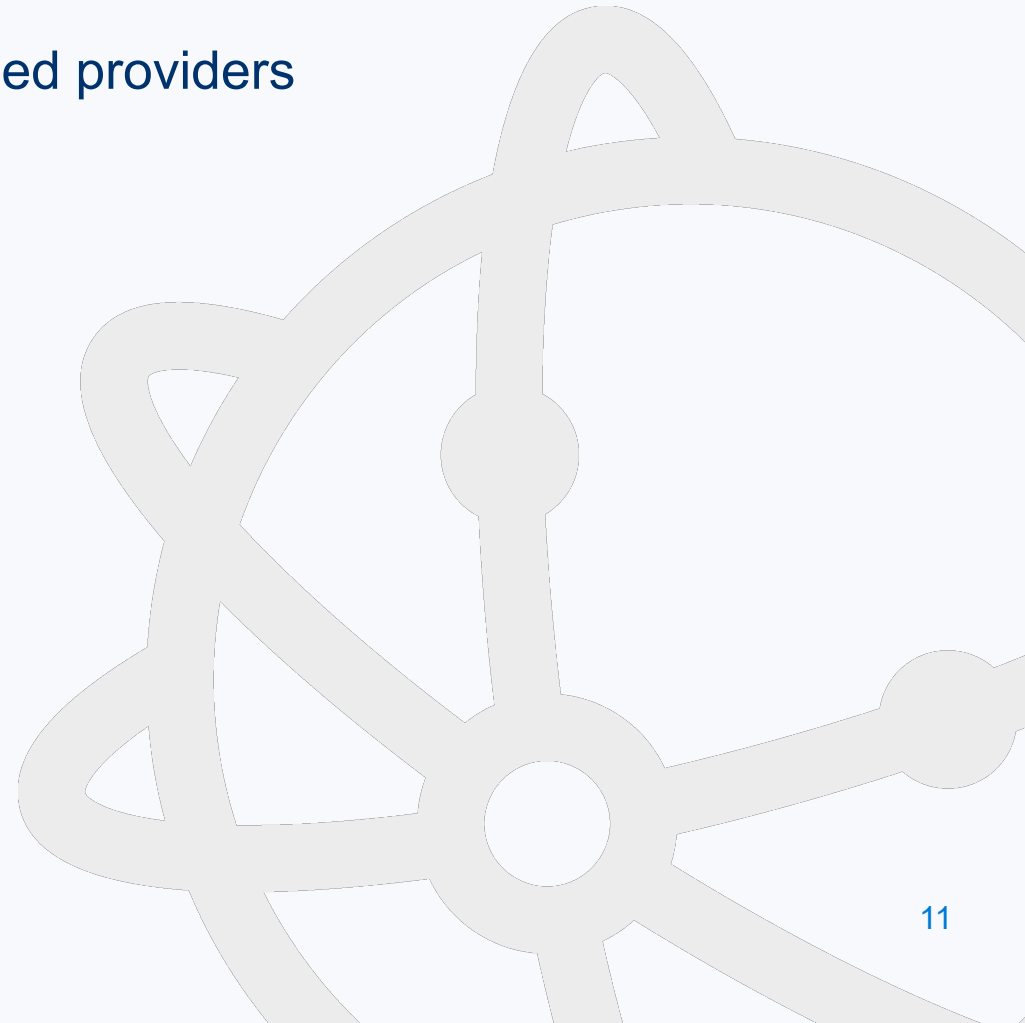

Where do we stand as of 30 September

- 394.076 service groups (participants) were scanned in the SML
- 166.874 still only use the old BIS 1.0 or BIS 2.0
- 1994 use no BIS documents at all
- **42,3 % of the receivers in the SML are not using the mandatory Peppol BIS Billing 3.0**

AS4 migration status

Where do we stand as of 14 October

- 290 total service providers in scope for AS4 (251 Certified providers and 39 new providers)
- 31 have done the AS4 certification test
- 25 Service providers are currently doing the AS4 test
- **234 have not started the AS4 test yet!**

The new Peppol Agreement Framework

Work in progress

What	When
PA review of draft agreement documents	October 4 – November 15, 2019
Preparation of final draft agreement documents	November 15 – 22, 2019
MC evaluation of final draft agreement documents	November 22 – December 20, 2019
PA to document and get approval of their “special requirements”	November 22 - December 20, 2019
PA formal approval of final draft agreement documents	January 1 – 27, 2020
Publication of revised Agreement Framework	January 31, 2020
Migration initiation	February 1, 2020 →

Tax compliance – support for clearance and reporting

OpenPeppol position to be established

Tax clearance

- With a clearance model for eInvoicing, the tax administration requires each invoice to be reported and authorised electronically by them before or during the exchange process
 1. The tax authority requires to be involved in the issuance and receipt of eInvoices
 2. There are different invoice formats and validation rules required in clearance models
 3. Usually the message exchange process (from supplier to buyer) is not regulated

Tax reporting

- With a tax reporting model for eInvoicing, the tax administration requires a real-time copy of the invoice as part of the message exchange process, or as a batch sending
 1. The tax authority mandates the real-time or batch reporting of all invoices, distributed ledger technologies are also starting to be mandated
 2. There are different invoice formats and validation rules required in reporting models
 3. Usually the message exchange process (from supplier/buyer to tax authority) is done tax authority specific

International invoicing

Work Group to be established

- Pre-study completed by OpenPEPPOL Work Group in June 2019
 - Participation from Europe, North-America, Asia and Oceania
- OpenPEPPOL Work Group on international invoicing established Autumn 2019
 - Open for OpenPEPPOL members to participate
- Overall goal – to establish a PEPPOL international invoice framework by autumn 2020
 - Shared – fully defined
 - Aligned: Generalised → Specialised
 - Distinct content
 - Hierarchical layering

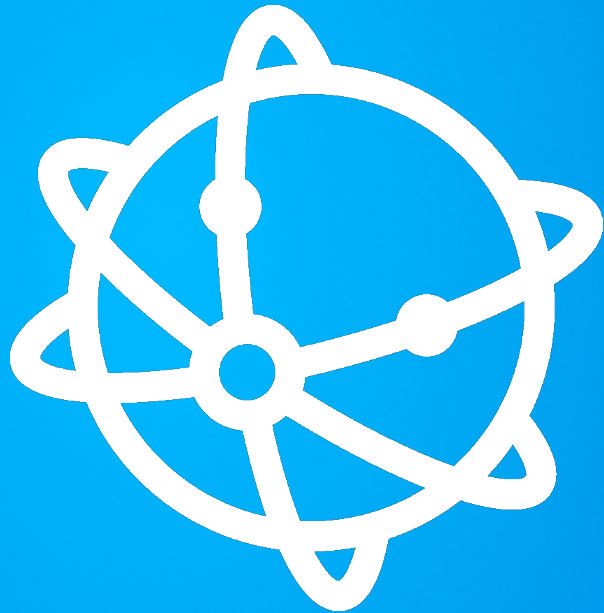

How to engage and follow up?

- Implement Peppol BIS Billing 3.0
- Implement the AS4 Message Exchange protocol
- Join one or more work groups
- Give feedback on the new Peppol Agreement Framework
- Be an active participant the next couple of days
