

Peppol

The future is open

End User Community

F2F meeting Oct 2019

www.peppol.eu

PEPPOL is owned by OpenPEPPOL AISBL

End User Community

Agenda 16 October 2019 – part 1

11:00 – 12:30

- Round table: concerns and issues to be raised by members
- How to get started with PEPPOL – the view of buyers and suppliers (workshop style)

Round table

Concerns and issues to be raised by members

What would you like to see we focus on in the End user community?

- Purpose: Peppol is not only specifications and infrastructure; we must be able to consume the information in a way that makes a value for both buyer and seller

How to get started with PEPPOL :

-the view of buyers and suppliers (workshop style)

- Evaluate what business processes that we have today and how we can utilize the exchange of structured business messages
- Agree that the PEPPOL BIS documents covers the business requirements
- See if there are dependencies in current contracts and business requirements that must be updated
- Identify the participants and the participants ID we can use
 - Normally included in the Business Agreement between the parties, if not query <http://directory.peppol.eu>
- Ensure your software and/or service provider supports relevant PEPPOL BIS and is connected to a Certified Access Point
- The list of Certified PEPPOL Access Points can be found at <https://peppol.eu/who-is-who/peppol-certified-aps/>

End User Community

Agenda 16 October 2019 – part 2

13:30 – 15:00

- Case Study for large private buyers:
Equinor
- ~~Public buyer view from Malta~~

Case Study for large private buyers:

Equinor

Background:

- Early into b2b integrations
- A lot of formats, versions and different ways to connect

Summary

- Round table: concerns and issues to be raised by members
 - Can Peppol help communities to do marketing?
 - Can Peppol do direct marketing?
 - How can we attract big (global) companies as members?
 - Can we help procurement organisations to make Peppol a requirement?
 - Can we get the Commission to include eOrders in the procurement regulations?
 - Can we promote the Peppol Directory more widely?
 - Can we have a common place on the website to find current developments?
 - We identified the need to develop new specifications more quickly:
 - Can we use national authorities as incubators for new specifications?
- How to get started with PEPPOL – the view of buyers and suppliers (workshop style)
- Case Study as a large private buyer: Equinor
