The future is open

PRAC – Recap & Takes

F 2 F meeting – October 2019

www.peppol.eu

PEPPOL is owned by OpenPEPPOL AISBL

PRAC – Recap & Update

- Growing Community (71 Members)
- Highly increased participation into F 2 F meeting
- Community run as Governance entity, business oriented not as “Project” anymore by an increased structured approach, in order to provide capability for pre-award processes and transactions, and offer true **value to members**;
- CMB strengthening in the change managed management - still in need to acquire same routines and procedures from Post-Award Community, but PRAC has **same requirements**;
- Next months will be crucial with the Cef Consortia going live on the eTendering pre-production, and Peppol BIS eTendering specs usage.

PRAC – Main Takes (1/2)

- PRAC CMB approved the passage from **Version 1.0 - RC2 to Version 1.0.0 of the PEPPOL pre-award profiles-**
 - **Outcome: eTendering Profiles Published and ready for use by CEF Consortia;**
- Discussion on ESPD in terms of the implementation of PEPPOL BIS ESPD 2.0 (based on ESPD EDM 3.0) for the alignment with eForms, (revision of the syntax based on UBL 2.3 based on ESPD EDM 2.1 and ESPD EDM 1.0.2.):
 - **Outcome: Need for setting up WORK GROUP also encouraged by EC for a better collaboration with the Publication Office- Scouting within the Community for the lead;**
- CEF Call 2019 (expiring November 14) has been presented as instrument to finance the activity of participation in the WG, both because it is applicable only from September 2020; a CEF 2020 Call that supports the adaptation of the services and support for the definition of the ESPD EDM 3.0, or the PEPPOL BIS ESPD 2.0, is desirable.

PRAC – Main Takes (2/2)

- The DIFI Catalog pre-award has been presented. It is also been launched the new work group on Pre-award catalogue lead by Sweden: PEPPOL BIS PreAward Catalog 1.0 (with a discussion on the use of the UBL extension element and enrichment of the syntax presented by DIFI.
 - **Outcome: Sharing the possibility to join the Work Group, not limited to PRAC Members**
- Presented the interim agreement for the pre-award and the revision framework agreement
 - Outcome: request to provide feedbacks on Annex 5 before the 15 of November

New Work Group: Details

PRE AWARD CATALOGUE

Scope: An evaluation of different approaches of how the pre award catalogue is used to propose an updated scope for the pre award catalogue to support a decision for BIS.

- **1° phase Pre-Study**
