History

- Started 2013
- Private initiative funded by participants & grant for start up years min Economical Affairs
- Main driver: machine to machine invoicing between corner 1 and 4.
- Use of Peppol or e-Invoice for B2G was not mandatory....

Main challenges

- From start working with SI UBL and Peppol BIS
- Special formats for Dutch central Government (OHNL)
- Keep B2B and B2G inline
- Use of Peppol or e-Invoice for B2G was not mandatory.....

Status now

- Working on a Public-Private set-up between Min. Internal Affairs and Simplerinvoicing
- Keep the power of having 40 software providers in our community
- Align SI UBL and Peppol BIS
- AS4 implementation

Future

- Working on 2020 and beyond set up.....
- Also look at Pre Award and other document via Peppol Network
- Be front runner again within Peppol Community

Thank you
