

Candidate

Post-Award Change Management Board member (2-Year term)

Jan Mærøe, Norwegian Digitalisation Agency

<https://www.linkedin.com/in/jan-m%C3%A6r%C3%B8e-7230a119/>

Motivation

I have participated as a member in Post-Award Change Management Board for three periods and Pre-Award Change Management Board for the last year. Norway has adopted PEPPOL BIS / EHF and increased maturity in the Norwegian market (national and cross border). We think that digdir, represented by me, can contribute with knowledge that help European adoption further on, based on experience from our work. One of the most important issue now is to secure transformation from existing format to BIS Billing 3.0. Norway also increase adoption of PEPPOL BIS /EHF ordering, catalogue and despatch advice throughout out our nation program.

CV

Technical expert and architect, Jan Mærøe, has long experience from PEPPOL project and OpenPEPPOL .

Manages development and maintenance of Norwegian Post-award and Pre-award specifications. He has been working with implementing PEPPOL BIS and EHF in the Norwegian marked. Participating in OpenPEPPOL and CEN TC440. Is also part of the ontology project led by Publication Office. He has been in charge of creating PEPPOL BIS for the Pre-award area. Is now the leader of the Post-Award Community Test team
